Introduction

Oxford University Press (OUP) is a department of the University of Oxford. It furthers the University's objective of excellence in research, scholarship, and education by publishing worldwide. OUP Pakistan is committed to the spread of knowledge and improvement in the intellectual content of life in Pakistan.

OUP's aim has always been to stimulate critical thinking along with a love for books and reading among the younger generation, and our authors bear this in mind when producing our books. In order to encourage the reading habit, we provide, in addition to textbooks, appealing and challenging reading material for children at every level. Our growing list of supplementary texts includes books in English, Urdu, and the regional languages of Pakistan.

OUP strongly believes in the power and benefits of reading and story-telling. It is engaged in helping children embark on a life-long quest of stories, books, and knowledge.

The books featured in this catalogue cover a wide range of age groups, subject areas, and genres of writing, including fiction, non-fiction, dictionaries, and reference books. These books will be valuable contributions to school library resources. Libraries help to inculcate the reading habit by providing access to material and resources; they motivate students by extending their learning outside the curriculum, and make pupils life-long learners by developing information skills. The scope of titles, which will appeal to all students, will involve the less able, and challenge the high achievers.

NOTE: Prices of books not mentioned in the catalogue are available on request.

All local teaching guides are complimentary and can be downloaded from the Oxford University Press Pakistan website www.oup.com.pk

OXFORD READING TREE (ORT)

A guide for teaching children who are learning English

Ages 4 to 12 years

Oxford Reading Tree is one of the most popular reading schemes in the world. It is highly successful because children love the characters and enjoy reading about them; it is easy for teachers to use and is an ideal way to encourage more parental support.

Each book in the scheme tells a complete story. Young children can remember a simple story told in natural sounding language even if they cannot read separate words or letters yet.

Oxford Reading Tree is divided into stages (Levels 1 to 9). You can easily identify each stage by the colour on its cover. As children progress to each new stage, the number of words and the difficulty of the sentences in the stories gradually increase. Stage 1 teaches important pre-reading skills. Levels 1+ to 5 introduce specific reading skills which are developed as children progress through Levels 6 to 11 to become fluent and confident readers. *TreeTops* extends it for 7 to 11 year-olds. Children learning English may take one or two years to complete Levels 1 to 5.

Oxford Reading Tree gives children the very best start in phonics and gets them on to richer reading with the help of the following:

- A systematic phonics teaching programme with resources and training which really work
- More decodable readers than any other reading programme
- A unique bridge from phonics to richer reading
- Over 300 stories with children's best-loved characters
- Levelling you can trust so every child becomes a confident reader

...and so much more besides!

Oxford Primary Reading Assessment

All are expertly levelled using the unique Oxford Reading Criterion Scale which enables you to assess every child, match them to the right book and evidence real progression. The *Oxford Primary Reading Assessment Handbook* gives schools everything they need to ensure consistent teacher assessment of reading.

THE STORYBOOKS

Before starting the storybooks, it is very important that the *Oxford Reading Tree* characters are introduced to the children using the *Flopover Book*. This will capture their interest and familiarize them with new vocabulary. Children will then progress up the trunk of the reading tree, moving on to each new stage as they gain confidence and fluency.

Vocabulary in Oxford Reading Tree

A core vocabulary is used and repeated in the stories to build confidence and reading fluency. There are 'key' words for each stage, including high frequency words that the children should learn as part of their sight vocabulary, for example, 'the', 'and', 'he'. The stories also contain context words that can usually be guessed from the pictures, for example, 'cornflakes', 'party', 'dinner'. Vocabulary lists are given in the teaching notes.

OXFORD READING TREE: EXPLORE WITH BIFF, CHIP AND KIPPER

Topic-linked pairs of engaging character stories and compelling non-fiction books. Perfect for deepening reading comprehension.

Features

- Topic-linked pairs of imaginative character stories featuring well-loved characters and compelling non-fiction books.
- The books in each pair are linked to each other, so that children reading the fiction will be motivated to read the matching non-fiction afterwards, and vice-versa.
- All pairs focus on a science, geography, history or art topic, so that they support the wider curriculum and link in with subjects being taught in the classroom.
- The series develops the comprehension skills children need to reach the expectations of the 2014 National Curriculum, with comprehension questions included in every book.
- Engaging phonically decodable text is appropriate for developing readers, featuring a limited number of high-interest topic words to enrich and add interest and support vocabulary development.
- Fiction books feature all the characters from the Biff, Chip and Kipper Stories. Real-life scenarios and humorous illustrations as well as dramatic magic key adventures inspire and motivate the reader.
- Non-fiction books feature stunning photographs and the varied texts engage readers with new and wide-ranging information.
- All books are accompanied by teaching notes and handbooks, which focus on developing comprehension alongside developing decoding skills, and inside cover notes, which provide targeted support for parents and teaching assistants.
- The series is underpinned by Oxford Levels and the Oxford Reading Criterion Scale, matching every child with the right book through careful grading.

BIFF, CHIP AND KIPPER STORIES

Level 1

There are 12 picture storybooks at Level 1 without any words. These will help the children understand that stories have a beginning, a middle and an end, and that books in English are written from left to right. All the books in Level 1 are based on familiar experiences such as getting up, family life, and going to school. The pictures and familiar context make it easy to explain unfamiliar words and talk about the stories in the children's own language.

Each book has an extended story; these are more detailed versions of the stories to read aloud to children. These can be found in the *Extended Stories Photocopy Masters* and include a set of guided response questions to draw the children into the illustrations and events in the story, requiring them to make predictions about what might happen next, and relate events to their own experiences. The questions can be adapted to suit the children's abilities or be asked in their first language, if necessary. The children can retell the story either in English or a mixture of English and their own language.

Wordless Stories

These stories introduce the characters and children learn that the pictures tell a story, where a story begins, and how to turn the pages.

First Words

First Words contain a few simple words closely linked to the illustrations. This is excellent for beginners of English as they will be encouraged to read the words they recognize.

LEVEL 1+

Level 1+ stories have one line of text per illustration. Within this stage there are Patterned Stories and First Sentences. It is suggested that the books in Level 1+ are read in the order shown in the box.

Patterned Stories

The text in these stories is deliberately repetitive and practises high frequency words in order to build children's confidence and sight vocabulary.

First Sentences

1+ First Sentences focus on whole sentences to draw children's attention to full stops and capital letters.

LEVEL 2

Level 2 consists of *Level 2 Patterned Stories*, *Level 2 First Phonics*, and *Level 2 Stories*. It is suggested that the books in Level 2 are read in the order below.

First Sentences

First Sentences provide practice of high frequency vocabulary with highly repetitive text to continue to build children's fluency.

Patterned Stories

Each of these stories is written to give two high frequency words several repetitions. This consolidates recognition of common keywords.

Stories

These stories introduce a wider vocabulary and develop children's understanding of the main characters. They help develop the skills of word recognition, relating illustrations to text, sequencing, prediction, story structure, and oral language skills.

Level 3

Level 3 consists of *Level 3 First Phonics* and *Level 3 Stories*. It is suggested that the books in Level 3 are read in the order below.

First Sentences

First Sentences include a range of high frequency vocabulary with repetitive text to continue to build children's fluency.

Stories

These are slightly longer than the stories at Level 2 and have longer sentences on each page. They provide opportunities to talk and ask questions about the stories, which is vitally important in increasing the children's understanding and vocabulary. The children's first language can still be used as necessary.

BECOMING FLUENT

Levels 4 and 5

Level 4

The stories at this stage are slightly longer, with more words. Six of the storybooks are numbered and should be read in order because they lead on to the books in Level 5. They are also graded according to difficulty and length. The emphasis on talking and questioning should be maintained.

Level 5

The stories begin to move away from familiar settings and into the world of fantasy. The magic key, found at Level 4, is used to transport the characters into adventures. These are extremely popular with children, and often provide the starting point for their own writing. Six of the books in Level 5 are numbered and should be read in order. By now the children will be emerging as independent readers. They will have a good sight vocabulary of just over 100 words, and will be able to decode words and use the illustrations to extract meaning from the text.

EXTENDED STORIES PHOTOCOPY MASTERS

These are longer, more detailed versions of the stories in Stages 1 to 4 to be read to the children. They include questions that stimulate discussion and aid comprehension.

BIG BOOKS

At Stages 1 to 9, many of the stories also come in a Big Book format. These allow the teachers to read the story and talk about the pictures with the class. This demonstration of reading helps learners to relate the text to the pictures. Reading together as a class or group provides support for the less confident pupils who will join in as much or as little as they can. The children should be encouraged to talk about the story either in English or in their first language to improve their understanding of the reading process and the story itself. It is also the perfect opportunity to assess their current vocabulary and teach them new words.

For Classes 1–3

Ages 6 to 12 years

An exceptionally strong skills training programme which covers language skills, phonics, and civic education skills.

One third of each unit is dedicated to skills training. The step by step approach focuses on writing and early literacy skills to build children's confidence in reading, writing, speaking, and understanding English.

At levels 1–3 the lessons are supported by flashcards, and by more activities on the Student MultiROM. The civic education syllabus educates children in good values and behaviour. The Photocopy Masters Books at levels 1–2 include 15 values worksheets.
- The Testing and Evaluation Book and the test builder element of the Teacher's Resource CD-ROM help teachers to evaluate children's progress.
- One lesson per page with clear lesson objectives makes the course easy to teach.
- Accompanying resources include the *Grammar Friends* series, skills series, Teacher's Resource Pack, course readers, and Teacher Resource.

THE OXFORD ROLLERCOASTERS

Ages 11 to 14 years

Classroom fiction for 11 to 14 year-olds, chosen by experts to appeal to all

- Engaging stories attract students and encourage active reading
- Ideal for individual reading or for whole class work, with reading guides and online support for each novel
- The durable, flexi-cover format encourages students to pick up the readers, while ensuring that the books last longer

“In 35 years of English teaching, I don’t think I have ever seen a series that impresses me quite as much as this does. The back-up material, both online and in the form of pupils’ booklets, is thoroughly well-conceived—focusing thankfully on the texts themselves instead of providing almost tangential ‘related’ work. I have no doubt that this series of texts will enliven children’s experience of English teaching for years to come.”

—Alistair Lawrie, Principal Teacher of English, UK

Graphic stories are a popular genre of writing in English as well as in many other languages in many countries. However, there were no locally produced graphic stories in Pakistan in English, Urdu, or any of the regional languages before the publication of Abdul Sattar Edhi. The richly pictorial presentation of text in this genre is effective in attracting reluctant readers to the world of books.

He was very popular among the masses and a strong influence on Pakistan's art and literature, especially poetry. In 1962, Faiz was awarded the Lenin Peace Prize by the Soviet Union, and nominated for the Nobel Prize in 1984. THE ESSENTIAL READER

Stories from Pakistan

For O and A Levels

The struggle between the traditional and the contemporary, the reflection of socio-political changes, and the spectrum of emotions felt and expressed by individuals are some of the themes which come across in this selection of writings by Pakistani authors.

This collection, especially compiled for O level and higher secondary students, introduces contemporary creative writing in English as well as translations from Urdu and Sindhi into English. The students will find a rich variety of styles, ranging from the irreverence evoked by folk humour to the subtleties of writings from the Pakistani diaspora. The selection falls into two separate sections dictated by the choice of language; yet interestingly, common themes of nostalgia, archetypal journeys, and severance from one's roots recur with a regularity that cannot be put down to mere coincidence.

POETRY

IBN-E-KHALDUN AND THE MUQADDIMAH

WRITTEN AND COMPILED BY FAHMIDA RIAZ

Ibn e Khaldun and his Muqaddimah is the fifth offering in the *Literary Heritage Series* for Young Readers. While the other titles in this series are about world-famous poets, Abdul Rahman Ibn e Khaldun was a Muslim intellectual who should be a source of inspiration for our young generation.

A historiographer and historian, Ibn e Khaldun is known as the founding father of modern sociology, the science of demography, natural sciences, politics, economics, and development of civilizations. The *Muqaddimah*, meaning 'An Introduction', was written for a history book towards the end of his long and varied career. However, as it contained the very essence of his life's experiences, observations, and analysis, it outshone the rest of his scholarly work. Today, Ibn e Khaldun is universally acknowledged and is important for our young generation as a link between the past and the present.

AIK CHAMAN KAY PHOOL HAIN SAARAY

Ages 7 to 10 years

Meet our friends, Naveed, Ali, Miriam, Iqra, and Komal. They show us that all kids are alike, even if they are a little different. They have strengths and weaknesses, likes and dislikes, they love their families and friends who also love them. Sometimes they have fun and at other times they face difficulties—just like all the other kids.

This book is designed to teach children early on about inclusion: that people with a disability are able to do many things and are not someone to fear. In fact, sometimes not having one faculty makes something else better than most people's. But the real lesson is that we are all human and really just the same.

PATRAS KAY MAZAMEEN

AHMED SHAH BUKHARI PATRAS

The essays in this book constitute a landmark in the evolution of humorous prose in Urdu. The individual essays contain various characters in comic situations such as a very dull student or a henpecked husband. In contrast to the riotous and ribald Urdu prose of the 1920s, Patras developed a style that was as communicative as it was restrained. This has been a popular work, but over the years, several unauthentic versions have flooded the market. The *Oxford University Press* edition contains the authentic and original text, and this edition has in addition three very rare reviews in which Patras combined the functions of literary criticism and humour.
